The Opportunity

Why the UK property advertising market is ripe for disruption

UK Property Portal Market — 2026

Rightmove dominates with £425M revenue (FY2025), charging agents an average £1,524/month — yet agents report paying up to 13.5% of sales commission to the platform. Zoopla generates £84M, with 68% from advertising. The market is primed for a modern, AI-powered alternative that offers better value, richer targeting, and transparent pricing. Britestate enters this £500M+ market with technology advantages no incumbent can match.

02

Technology Advantage

AI-powered personalisation, real-time analytics, and behavioural targeting that legacy portals can't match.

03

The ROI Case

Why premium pricing delivers premium results

In property advertising, audience quality matters more than audience size. A single qualified lead from a verified, in-market user is worth more than 10,000 untargeted impressions.

Average CPM	£4 - £6	£8 - £15	£12 - £25
Click-Through Rate	0.05%	0.15%	0.35% (est.)
Cost Per Lead	£60 - £100	£30 - £60	£18 - £50
Lead Qualification Rate	5 - 10%	15 - 25%	35 - 50% (est.)
Cost Per Qualified Lead	£200+	£100 - £200	£45 - £100
Audience Verification	None	Partial	Full (7-role verified)
Intent Signal Depth	Low	Medium	High (AI-powered)

Example: Mortgage Broker ROI Scenario

Investment: £2,000/month Financial Tool Sponsorship
Estimated qualified leads: 40-80/month (at £25-50/lead)
Average mortgage value: £250,000 | Broker commission: 0.35% = £875/mortgage
Conversion rate (lead to completion): 15% | Monthly completions: 6-12
Monthly revenue: £5,250 - £10,500

ROI: 163% - 425% return on advertising spend
